

New Address
Basalt Fibertec GmbH
Eisenbahnstrasse 25
CH-4900 Langenthal
T +41 62 530 25 80

Dear Business Partners

With our first newsletter, I welcome you all warmly.

We also welcome Hans Ulrich Kaspar as a new member of our sales team. With his many years of international experience in the entire textile supply chain from fiber to garment, he will be a welcome support in the European region.

At this point, I would like to thank Cédric Thalmann for his support in building up the company. Cédric Thalmann has left the company due to time constraints in order to concentrate more on his core business.

Developments with Basalt fibers for new applications are an important concern for us. Projects with ETH Zurich, Universities of applied sciences and companies from the private sector strengthen our position as a competent supplier of Basalt products.

Sincerely regards

Ruedi Leutert

New location

We used the summer break and moved to Langenthal. We now have spacious storage and production areas available, which also allow us to manufacture and process our products. Many of our products we can now deliver from stock.

Only a 3-minute walk from the train station, we are very centrally located in the industrial area of the Ammann company.

Website

In the last few months, we have been working hard to expand our website.

For most Basalt products, article lists, test reports and technical data sheets are now available for download in German and in English.

Visit us at www.basalt-fibertec.ch

New Basalt-Products

Requests from customers have prompt us to develop new products and add them to the program. In a first step, these are the following products:

- Basalt nets /mats, 210cm x 500cm
- Mini-Rebars wavy, twisted, 50mm \varnothing 0.8mm & \varnothing 1.2mm
- Core-Yarn
